

Mariana Archipelago Cost-Earnings Survey 2011

New NOAA Study to Value Fishing in the Marianas

If you catch any fish from a boat your response is important

Who?

If you fish from a boat and catch any fish on:

- Guam
- CNMI (Saipan, Tinian, Rota)

When?

We will be conducting surveys on Guam and CNMI during the **Spring and Summer of 2011**

What?

We want to hear about

- *your* fishing experiences
- *your* fishing expenditures and costs
- *your* suggestions for future management of Mariana Archipelago fisheries

Why?

We know fishing is important to you. This study will help fishery managers better understand the economic, social, and cultural importance of fishing across the Mariana Archipelago. Additionally, it will allow you to contribute direct feedback to managing agencies through the comments you provide.

All individual information and survey responses will remain confidential
