

Analysis and manuscript preparation focused on the study site of Kapoho Bay, Hawaii Island<sup>1</sup>

Olivia Hughes

Protected Species Division, Marine Turtle Biology and Assessment Program  
Pacific Islands Fisheries Science Center, NOAA Fisheries

**Requesting Agency/Entity:**

Marc Rice

Hawaii Preparatory Academy

**Purpose:**

The data I am requesting will be used for analysis and manuscript preparation focused on the study site of Kapoho Bay. Copies of all Hawaiian Archipelago capture/recapture data, including strandings and nestings, will be crucial in cases where turtles recorded at Kapoho Bay have also been re-sighted or originally tagged at other locations throughout the Hawaiian Islands.

**Data Sources:**

Where will the data be retrieved from?

Oracle Turtle Data Processing System

Excel spreadsheet

**Attached File:**

*The data is valid for one year from receipt and is non-transferable. If the data is needed after one year, another data request must be submitted. If you receive a request for the data, the person must contact me directly. Please use the internal report number when citing this data. Thank you.*
