

Pacific Islands Region Species List.xlsx - Hawaiian Monk Seals

| Metrics | | | | | |
|---|---|--|--|--|----------------------------------|
| Score | Occurrence | Stock structure | Abundance | Human-caused mortality | |
| 4 | Known seasonality and range within stock or EEZ area | Recognized/proposed as single population or as part/whole Distinct Population Segment(s) under ESA | Spatio-temporal variability; trends in abundance | Estimate w/CV for all known sources | Color Format |
| 3 | Partial range and/or seasonal information | Established based on genetics or collection of other factors | Stock/EEZ-wide estimate w/CV < 0.5 | Estimate w/CV for most common sources | Score increase over last 5 years |
| 2 | Verified reports (Observer Program, other researchers, stranding, etc.) | Available data suggest finer/different structure may be appropriate | Stock/EEZ-wide estimate w/CV > 0.5; Partial stock area estimate w/any CV | Some sources known; Minimum estimates | No change in last 5 years |
| 1 | Anecdotal report(s) | EEZ-wide designation | Minimum estimate/count; Stock-wide estimate >8yo; No abundance analysis | Potential sources identified; No estimates | |
| 0 | No info/not yet studied | No info/not yet studied | No info/not yet studied | No info/not yet studied | |
| Note: Score based on available information as of 2014 | | | | | |

| | | Assessment Component | | | | |
|--------|--------------------|----------------------|-----------------|-----------|------------------------|--------------------------------------|
| Region | Species | Occurrence | Stock Structure | Abundance | Human-caused Mortality | Year of Last Stock Assessment Report |
| Hawaii | Hawaiian Monk Seal | 4 | 4 | 1-4 | 2 | 2014 |
